FROM THE IPPY AWARD-WINNING AUTHOR OF INSIDEOUT

"You are not 70% water. You are **99.9% water at the molecular level.** But what does that mean?"

Water is not a passive element. It is intelligent, dynamic and responsive.

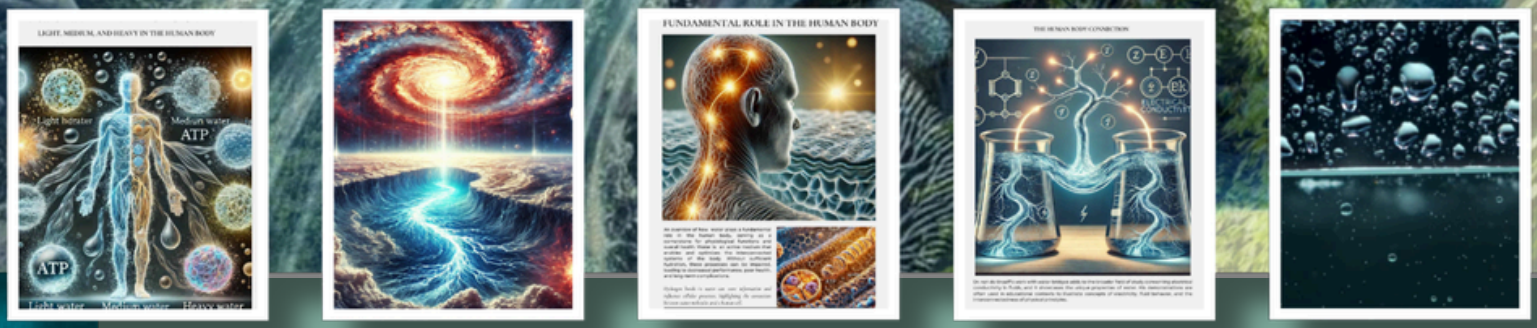

The only book that bridges cutting-edge water science with cosmology, geometry, quantum biology and ancient wisdom. Richly illustrated, it reveals how water stores memory, responds to sound, light and emotion, and governs coherence in living systems.

From the hexagonal structure of ice to the toroidal flows of life energy, this is the story of life told through the one element t hat connects all things.

Echoes of Water | By Karen Elkins

"Water is life's matter and matrix, mother and medium. There is no life without water." -Szent-Györgyi

Karen Elkins is a multidisciplinary researcher, speaker and creator of *Science to Sage*, the international magazine she has published since 2009, an art canvas for science that bridges cosmology, consciousness, biology and the arts. Her first book, *InsideOUT: Revealing the Mysteries of Creation*, won the IPPY Silver Medal in Science. She has hosted events, and a radio show with new- science and consciousness leaders, and her gift is weaving science with spirituality, and data with design, making the complex both beautiful and accessible.
